

THAPELO LEKHUANE

FRONT-END DEVELOPER

PROFILE

Versatile and sharp IT professional specializing in front-end and full-stack development with React, Angular, Node.js, and MongoDB, plus a strong DevOps edge. I build scalable, cloud-native apps, automate with CI/CD, and thrive where clean code meets smart infrastructure.

WORK EXPERIENCE

DEVOPS ENGINEER

DynamicDNA

August 2024 - November 2024

- Built cloud-native applications on Azure
- Used Infrastructure as Code with ARM, Bicep, and Terraform
- Designed and managed CI/CD pipelines for smooth deployments
- Applied DevOps best practices to optimize development workflows

FULLSTACK DEVELOPER

CAPACITI

December 2024 - May 2025

- Built and deployed front-end and full-stack apps with React, Angular, Node.js, and MongoDB
- Wrote clean, scalable, and high-performance code
- Debugged, optimized, and refactored code for stability and efficiency
- Managed version control and branching with Git (GitHub/GitLab)

SOFTWARE ENGINEER

Talent Match Africa

May 2025 - Present

- Developing responsive front-end interfaces using React, Angular, and modern JavaScript/TypeScript
- Building and customizing WordPress themes and HubSpot CMS templates for dynamic, marketing-driven websites
- Translated UI/UX designs into pixel-perfect, cross-browser-compatible web pages
- Optimized front-end performance and accessibility for speed, SEO, and user experience

THAPELO LEKHUANE

FRONT-END DEVELOPER

QUALIFICATIONS

RICHFIELD

February 2020 - April 2023

- N-Dip Information Technology
- certification: Cloud Architecture and Infrastructure
- AZ-900 Certificate
- AI Augmented certificate
- certification: DevOps Essentials.

SKILLS

TECH

- React & Angular: Modern, component based UI development
- Node.js & MongoDB: Full-stack JavaScript and NoSQL expertise
- CI/CD & DevOps: Automated builds, tests, and deployments
- Azure & IaC: Cloud-native solutions using ARM, Bicep, and Terraform

SOFT

- Problem-Solving: Fast, scalable fixes
- Adaptability: Quick tech learner
- Detail-Oriented: Clean, consistent code
